Notice of Fee Increase on October 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after October 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on October 1, 2003. See Revision of Patent Fees for Fiscal Year 2004; Final Rule, 68 Fed. Reg. 41532, 41533, 41534 (July 14, 2003).

The current fee schedule is accessible from (<http://www.uspto.gov/main/howtofees.htm>).

If the fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due" but not the correct amount in view of the fee increase, a "Notice of Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice of Pay Balance of Issue Fee," if the response to the Notice of Allowance is to be filed on or after October 1, 2003 (or mailed with a certificate of mailing on or after October 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously-paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Effective October 1, 2003, 37 CFR 1.18 is amended by revising paragraphs (a) through (c) to read as set forth below.

Section 1.18 Patent post allowance (including issue) fees.

- (a) Issue fee for issuing each original or reissue patent, except a design or plant patent:
- By a small entity (Sec. 1.27(a))..... \$665.00
 - By other than a small entity..... \$1,330.00
- (b) Issue fee for issuing a design patent:
- By a small entity (Sec. 1.27(a))..... \$240.00
 - By other than a small entity..... \$480.00
- (c) Issue fee for issuing a plant patent:
- By a small entity (Sec. 1.27(a))..... \$320.00
 - By other than a small entity..... \$640.00

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Léonard Lewis on 10/29/03.

The application has been amended as follows:

In the claims:

In claim 18, line 1, "claim 2" has been changed to --claim 1--.

In claim 27, lines 3-4, "relative articulated movement therewith" has been changed to --relative pivoting movement with respect to each other--.

The following is an examiner's statement of reasons for allowance:

Claims 1 and 3-20 are allowable because there is no teaching or suggestion in the prior art of a fluid dispensing apparatus for applying liquid to a substrate comprising the combination of at least two liquid dispensing nozzles each disposed within a respective nozzle block, a web of material that is porous for liquid dispensed from each nozzle, the porous material being between each nozzle block and substrate, each nozzle dispensing liquid onto the substrate via contact between the porous material and the substrate and the nozzle block pivots about a first axis.

Claims 21-26 are allowable because there is no teaching or suggestion in the prior art of a fluid dispensing apparatus for applying liquid to a substrate comprising the combination at least

Art Unit: 1734

one liquid dispensing nozzle disposed within a rub block, a web of material disposed against the rub block that is porous to the liquid dispensed from the nozzle, the porous material being supported on the rub block, the nozzle dispensing liquid onto a surface of the substrate by contact between the porous material and the substrate with the liquid flowing through the porous material to the substrate, and the nozzle block pivots about a first axis in response to variations in the substrate surface.

Claims 27-31 are allowable because there is no teaching or suggestion in the prior art of a dispensing head for a liquid dispensing gun comprising the combination of a nozzle having a main body with an outlet orifice formed therein, and a rub block mountable on the nozzle main body for relative pivoting movement with respect to each other.

Claims 32 and 33 are allowable because there is no teaching or suggestion in the prior art of a fluid dispensing apparatus for applying liquid to a substrate comprising of at least two liquid dispensing nozzles each disposed within a respective nozzle block, a web of material that is porous for liquid dispensed from each nozzle, the porous material being between each nozzle block and substrate, each rub block being selectively and separately positioned for contacting the porous material with the substrate.

Claim 36 is allowable because there is no teaching or suggestion in the prior art of a fluid dispensing apparatus for applying liquid to a substrate comprising the combination of at least two liquid dispensing nozzles each disposed within a respective nozzle block, a web of material that is porous for liquid dispensed from each nozzle, the porous material being between each nozzle block and substrate, each nozzle dispensing liquid onto the substrate by contact between the

Art Unit: 1734

porous material and the substrate, each nozzle block being individually positioned against the substrate to dispense liquid thereon through the porous material.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
